

Vorsprung durch Technik **Audi**

www.usedaudi4sale.co.uk from Crewe Audi

Superb used Audi vehicles from someone who sells rather nice new ones as well.

Vorsprung durch Technik **Audi**

**Only approved used Audi are sold
on www.usedaudi4sale.co.uk**

What this means to you.

When it comes to buying a used Audi,
how can you be sure of its mechanical
condition, mileage and history?

Well, it's quite simple, really – make sure
it is an Approved Used Audi and you'll
have no concerns – just peace of mind.

All our Audi vehicles are Approved Used.
That means they have passed a rigorous
inspection and any problems found
rectified before they go on sale. Most
importantly, they're all covered by a
12-month guarantee and a 30-day/1,000
miles fault related exchange policy.

**Confidence, peace of
mind and reassurance.**

Vorsprung durch Technik **Audi**

Confidence, peace of mind and reassurance.

These are the virtues of buying a Approved Used Audi from Crewe Audi, because every car has, or is supported by:

► Multi-point inspection

All Audi vehicles benefit from superior build-quality and finish. Our multi-point check ensures they stay that way. And this is as true of the areas you can't see as the ones you can.

Before it makes the grade as an Approved Used Audi, every pre-owned Audi model must pass over 100 thorough inspections. An Audi technician makes separate mechanical, bodywork, interior and electrical checks, conducts a full road-test and prepares a detailed written report which is available for your assessment.

► Comprehensive reconditioning

Should the multi-point check highlight any irregularities, we will undertake rectification work, ensuring the car meets our meticulous standards before it reaches the forecourt. Most importantly, we only use Audi Original parts.

► Provenance and mileage check

As part of the Approved Used Car Programme, you can rest assured that the Audi you buy will have a clean, completely transparent record. You'll receive a certificate confirming that the following provenance checks have been carried out and verified:

- The vehicle's engine and chassis number match the DVLA records
- The date of first registration is correct
- The vehicle is free from outstanding finance charges
- The vehicle has not been stolen
- The vehicle has not been written off
- Whether the vehicle has had a number plate change

We also make a thorough check of the vehicle's mileage.

Vorsprung durch Technik **Audi**

Confidence, peace of mind and reassurance.

► Complete service history

As another strand of our commitment to vehicle provenance, we will provide you with a service history certificate at the time of vehicle handover, detailing all routine servicing work that has been done by the Authorised Audi Dealer network. We make an extremely thorough check on the vehicle's mileage. The certificate also verifies the following:

- Vehicle registration number
- Vehicle chassis number
- Vehicle description
- Colour
- Engine number
- The status of the vehicle's warranty

► 30 day exchange plan

All the checks and double-checks give you unrivalled reassurance. And even further still, Audi operates a 30 day exchange policy - so in the unlikely event of an irreparable fault occurring within 30 days/1,000 miles (whichever occurs sooner) – we will offer you an exchange. This does not affect your statutory rights.

► 12 month guarantee - including Roadside Assistance

Also included as part of the programme is the backing of a 12 month Audi Guarantee, which includes Audi Roadside Assistance to provide any necessary help at the roadside, with consequential expense cover for items such as car hire and hotel accommodation. What more could you ask for?
